

Waitakere City Council Operative District Plan: Information Brochures

Waitakere City Council has prepared a series of information brochures that provide guidance on rules in the Operative District Plan. These rules apply to development within Waitakere City.

The brochures listed below are available from the Council, and on the Council's internet site www.waitakere.govt.nz

Many residents will remember that information brochures were prepared when the Proposed District Plan was publicly notified. As a result of public submissions, there have been many changes to the Operative District Plan. These changes mean that the old brochures are now out of date, and there-

fore may be misleading.

Please note that the brochures listed below do not cover all of the rules that may apply to your development. Brochures on other rules will be available as they are prepared.

These brochures are only a guide to the Operative District Plan rules. The complete Rules are found in Volumes One and Two of the Rules Section of the Operative District Plan. You may also need to look at the Policy Section of the Operative District Plan. If you have any queries, or require further information, please ask the Council's Civic Centre Counter Staff or telephone the Council Call Centre on (09) 839 0400.
